I suffered severe injuries in a car accident. The first attorney whom I saw told me to take what the insurance company was offering because he could not get any more money for me. I am grateful that I went to see Ross Pepper. He took my case, and fought hard for me. Eventually, I received a settlement far more than what I was told was the most I would receive. Mr. Pepper was personally involved in my case all the way through. If you want a lawyer that will care about your case and be committed, you should talk with Mr. Pepper.

Sincerely,

Tanya Pickett
