RE: Recommendation

Mr. Pepper represented me when a business partner from Nashville breached an agreement to pay me for my shares in a multi-million dollar company. It was clear that I would not be paid unless I hired an experienced trial lawyer with the savvy and commitment to take my case to trial. Mr. Pepper did such a thorough job that I never had to go to trial. He obtained an excellent settlement for me and one that was far more than what was originally offered. A large law firm could not have provided me with more attention and commitment that Mr. Pepper and his staff did.

Respectfully,
